# SeaLog®

Revolutionize Your Aircraft Maintenance with Our Electronic Tech Log Software

Capabilities

- Streamline Operations
- Enhance Safety
- Boost Efficiency

SeaLog® app screen (08.00)

- TECHNICAL LOG BOOK
- FLIGHT/JOURNEY LOG
- DEFERRED DEFECT LOG
- FUEL UPLIFT LOG
- FLIGHT ACCEPTANCE LOG
- CABIN LOG
- DENT & BUCKLE CHERT
- NOTICE TO CREW
- LINE MAINTENANCE CHECK ACCOMPLISHMENT

Why Choose Our Electronic Tech Log Software?

REAL-TIME DATA ENTRY

Instantly log OOOI times, maintenance activities, discrepancies, Aircraft Records, Repair Mapping/Dent and Buckle, Part Numbers ON/OFF and corrective actions. No more waiting for paperwork to be processed.

ENHANCED SAFETY

Ensure compliance with aviation regulations through automated alerts and reminders for scheduled maintenance and inspections

USER-FRIENDLY INTERFACE

Designed with aviation professionals in mind, our intuitive interface ensures quick adoption and ease of use.

COST EFFICIENCY

Reduce operational costs by minimizing downtime and optimizing maintenance schedules.

SECURE & RELIABLE

Protect your data with advanced secure cloud storage, ensuring your information is always safe and accessible. At Seabury® we are ISO 27001 compliant.

SEABURY® Solutions
Industry Leading Enterprise Software

Key Features

MOBILE ACCESS

Log and access data from anywhere using our mobile app with offline capabilities for areas of poor internet connectivity.

CUSTOMIZABLE REPORTS

SeaLog® allows for the generation of customizable reports, tailored to meet specific user needs.

INTEGRATION CAPABILITES

Seamlessly integrate with existing MRO systems and Alkym® software.

ANALYTICS & INSIGHTS

Gain valuable insights with our powerful analytics tools to make informed decisions.

Support & Training

Seabury Solutions® provides comprehensive support and training to ensure successful implementation and utilization of SeaLog®.

Our team offers personalized training sessions tailored to meet the specific needs of your organization, ensuring that all users are proficient in using the system. Additionally, we provide ongoing support through various channels, including email, phone, and on-site assistance, to address any issues or questions that may arise. Our goal is to ensure a smooth transition and continuous improvement in your operations with **SeaLog®**.

What is an Electronic Tech Log?

Our Electronic Tech Log, **SeaLog®**, is a digital version of the traditional aircraft maintenance logbook. It allows aviation professionals to record and access maintenance data in real-time, ensuring accurate and up-to-date information. **SeaLog®** will enhance safety by tracking aircraft utilisation for use in scheduling maintenance and inspections, and they help streamline operations by reducing paperwork and improving data accuracy.
